

Sculpting digital tapestries, where pixels gracefully dance to the choreography of elegant code.

Experience

Full Stack Web Developer - Melange Digital

REMOTE, [GITHUB](#) June 2023 - May 2024

- **Led** the development and implementation of Melange Digital website of **50+ pages** and integration of **whatsapp message automation** using cheerio API platform. Tech Stacks used - ReactJs, NodeJs & ExpressJs.
- Developed a client's website consisting of **40+ pages** having different complex functionalities including integration of Indian Market Stock Exchange data using **Google Sheets data APIs** through **Google Cloud Console**.
- Developed the front-end of a 15-page **AI web application** which has different kinds of **media upload features** and **3D model rendering**, **360 degree view images**, and image and video filters.
- Developed a landing page in HTML, CSS and JavaScript for a cruise company which was coming for the first time in India and gained more than 2 thousand+ people's request queries in only one month.
- Developed another landing page in ReactJs and TailwindCSS for a trading company which has crystal clear animations used in to ease the user-experience.
- Developed another 5+ different landing pages in ReactJs - Tailwind and HTML, CSS, and JavaScript for internal Melange Digital projects which include their involvement in auction in Singapore and other campaigns for better reach.

Skills

- **Proficient:** NextJS | ReactJS | Node.js | JavaScript | Python | C/C++
- **Others:** Linux | MS Azure | Figma | HTML5 | CSS3 | Tailwind | Typescript | Express.js | Git - GitHub | JQuery | Firebase | BootStrap | ThreeJs | Render | Vercel | Netlify | Cyclic

Personal Projects

PortFolio Website : Ayush Chauhan (ReactJS,Tailwind, EmailJS)

[LINK](#) | [GITHUB](#)

- This is my PortFolio website using the base build of ReactJS and I created its styles using Tailwind CSS and also I used EmailJS to get the emails to my email address if someone fills up the form on my website.
- I have used ThreeJS to render 3D models to make it look awesome and interactive.
- It is responsive for mobile users also, and has a hamburger menu in mobile phones.

Stuart - Web Browser Clone

- A web-browser clone created in Python language that I developed to enhance my skills in python and also to use it as a College project in my bachelors.
- I created this using PyQT5 library in python, and to use it, one has to download its .exe file first, after that, running that .exe file will open the browser.
- It has all the basic functionalities of a web-browser like back and forward button, and search bar, opening different pages and also the dark mode.
- I have used Google Homepage API to create its homepage like Google search engine.

Ai-Pictures - Text to Image Generation Tool

[LINK](#) | [GITHUB](#)

- Text to image Generation website where users can write a prompt and can create different images using Artificial Intelligence.
- This website uses OpenAI Dall-E model APIs to create images from text prompts.
- I have also added a community feed page where users can showcase the images.

Expo App - Basic Mobile App for Android and iOS

[GITHUB](#)

- Developed using React Native and Expo, the app runs seamlessly on both Android and iOS devices.
- Leveraged Expo's robust set of tools and libraries to ensure smooth performance, efficient loading times.
- Implemented essential mobile app features such as navigation, state management.

Accomplishments

- **Future Ready Talent Program (Microsoft + EY):** Came in first 1000 students in whole India to complete the internship. Got a certificate and won some goodies. Developed an automated ChatBot prompt + reply website which can be used in different platforms to answer the queries of users and ease the work of developers. [LINK](#)

Education

PHONICS GROUP OF INSTITUTIONS - ROORKEE

Aug 2018 - July 2022

Bachelors of Technology - Computer Science Engineering

Coursework: Data Structures, Algorithms, Operating Systems, Database Management Systems, Computer Networks, Web technology and Artificial Intelligence.

Personal Details

- **Full Name** - Ayush Chauhan
 - **Father's Name** - Mr. Gambhir Singh
 - **Date of Birth** - 12, Feb, 2001
- **Gender** - Male
 - **Marital Status** - Single
 - **Known Languages** - English, Hindi
